

Register of Government Contracts

Government Information (Public Access) Act 2009

Register of Government Contracts

Government Information (Public Access) Act 2009 No 52 (GIPA) Division 5 Part 3 Government Contracts Register General Information and Definition of Contracts

The GIPA act requires government agencies, including local councils to record and publish certain information about some contracts with private sector bodies
Part 3, Division 5 of the GIPA Act states that information about contracts between Council and private sector bodies that have or are likely to have a value of \$150,000 or more must be recorded in a Government Contracts Register.
The register must be published on Council's website and made public in any other way that Council decides to make its open information available

Contracts that must be included in the government contracts register.

Between Council and a private sector contractor signed after the commencement of the GIPA act for a value of \$150,000 or more and involve:

- * the contractor undertaking a specific project such as construction, infrastructure or property development
- * the contractor agreeing to provide specific goods or services
- * the transfer or lease of real property

Different classes of Contracts

The GIPA Act provides for three different classes of contracts, each with different information requirements. These are:
Class 1 contracts are those that have, or are likely to have, a value of \$150,000 or more. Information about Class 1 contracts must be entered in the Class 1 contract worksheet.
Class 2 contracts are Class 1 contracts that require additional information in certain circumstances. Information about Class 2 contracts must be entered in the Class 2 contract worksheet.
Class 3 contracts are Class 2 contracts that have, or are likely to have, a value of \$5million or more. Information about Class 3 contracts must be entered in the Class 3 contract worksheet.

What information is protected?

Agencies do not have to publish in the register of government contracts, the following confidential information:

- the commercial-in-confidence provisions of a contract
- details of any unsuccessful tender
- any matter that could reasonably be expected to affect public safety or security
- any information where there is an overriding public interest against disclosure

Commercial-in-confidence provisions of a contract refer to information which:

- The contractor's financing arrangements, financial modelling, cost structure or profit margins,
- The contractor at a substantial commercial disadvantage in present or future dealings with the agency, or
- Disclose any intellectual property in which the contractor has an interest.

How long must the information be included in the register?

Information about government contracts must be included in the register within 90 days of the contract becoming effective (s.27(2)).
Section 34 of the GIPA Act requires information, including a copy of a contract where required, to be included in the government contracts register for either 30 days, or until the obligations under the contract have been satisfied, whichever is the longer period.

Where should the register of government contracts be published?

Publicly available on Councils website
