Dear Rebecca,

**RE: 2-34 Davidson Street, Greenacre – Waste Strategy Clarification**

This letter is intended to provide clarification regarding the proposed waste management strategy for the above site in relation to recent changes to the design.

Elephants Foot have reviewed the Proposed Site Plan produced by the architects Reid Campbell (Issue S, dated 25<sup>th</sup> January 2022) and compared this to the plans referenced in the Operational Waste Management Plan and Construction and Demolition Waste Management Plan (Revision B, dated 22<sup>nd</sup> March 2021), both of which were supplied by Elephants Foot.

In Elephants Foot's opinion, as there has been no significant change to the floor area, the proposed changes to the design will not have an impact on the volume of waste generated. It is therefore deemed that Revision B of these reports is still applicable.

If further information or clarification is required, please do not hesitate to contact the undersigned.

Kind regards,

Jordan Parker
